Social Media and Social Networking

NU MOA

Social Media

['sō-shəl 'mē-dē-ə]

A computer-based technology that facilitates the sharing of ideas, thoughts, and information through virtual networks and communities.

Social Networking

['sō-shəl 'net-,wər-kiŋ]

The practice of using social networks, such as Facebook or LinkedIn, to form connections and communicate with others online.

Understanding Social Media

NU MOA

Understanding Social Media

NU MOA

Social media originated as a way to **interact with friends and family** but was later adopted by businesses that wanted to take advantage of a popular new communication method to reach out to customers. The power of social media is the ability to connect and share information with anyone on Earth, or with many people simultaneously.

Understanding Social Media

NU MOA

There are more than **3.8 billion social media users** around the world. Social media is an ever-changing and ever-evolving field, with new apps such as TikTok and Clubhouse coming out seemingly every year, joining the ranks of established social networks like Facebook, YouTube, Twitter, and Instagram.

Understanding Social Media

NU MOA

By 2023, the number of social media users in the United States alone is forecast to increase to approximately **257 million**. As of 2025, there are about **5.41 billion** social media users worldwide. This is roughly 65.7% of the world's population.

Understanding Social Media

NU MOA

According to the Pew Research Center, social media users tend to be younger. Nearly 90% of people between the ages of 18 and 29 used at least one form of social media. Further, these users tend to be better educated and relatively wealthy, or earning over $75,000 per year.

Some of the biggest social sites include:

NU MOA

What Drives Social Media Use?

NU MOA

1. For **self-expression** (sharing posts that portray who you are and what you care about);
2. For **relational interactions** (messaging and connecting with family, friends, and romantic interests);
3. For **exploration** (searching areas of interest); and
4. For **browsing** (general scrolling through feeds and apps).

ocial Media and Mental Health: What are the Positive and Negative Effects?

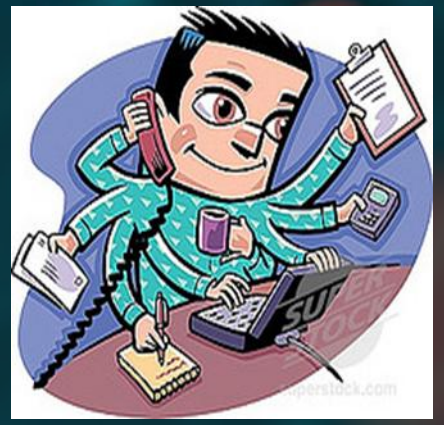

Pros

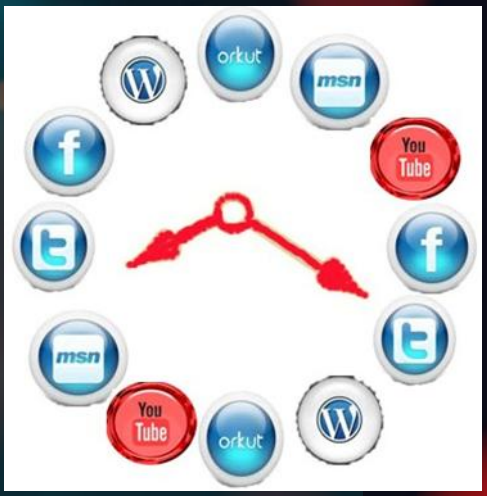

NU MOA

1. staying connected with family and friends worldwide via email, text, FaceTime, etc.
2. quick access to information and research
3. banking and bill pay at our fingertips
4. online learning, job skills, content discovery (YouTube)
5. involvement in civic engagement (fundraising, social awareness, provides a voice)
6. great marketing tools
7. opportunities for remote employment

Cons

1. Online vs Reality
2. Time wastage
3. Social media addicting
4. Fear of missing out
5. Self image issues
6. Dependent on spell checkers
7. Social Media Bullying
8. Social media and Suicide

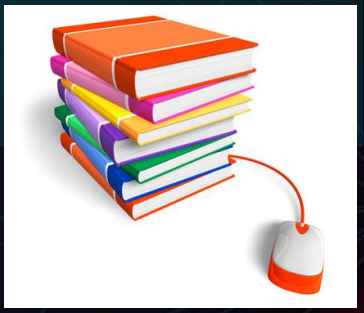

Other notable Cons in Social Media

NU MOA

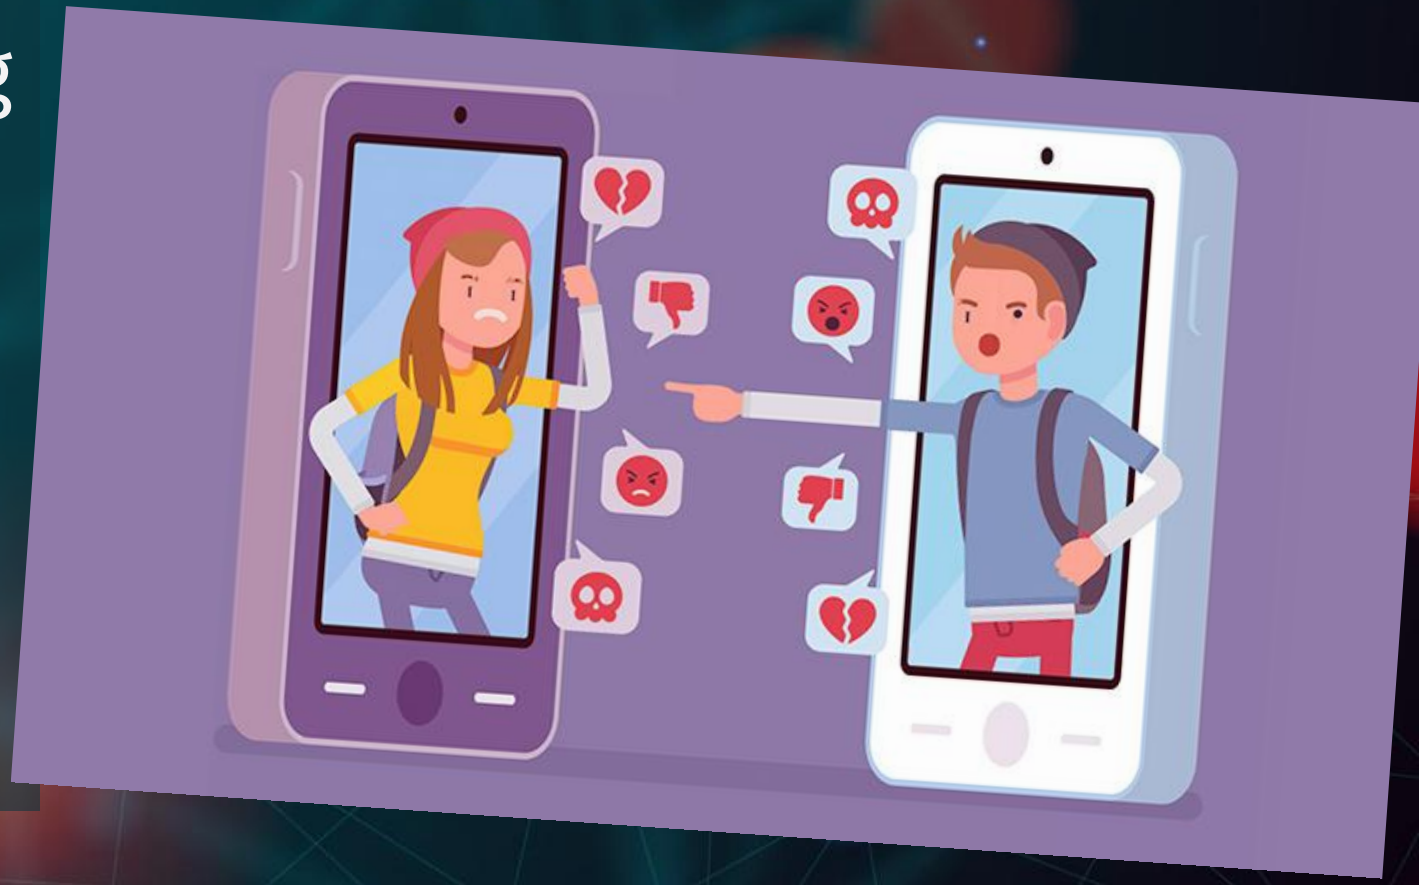

Sexting (or "sex texting") is sending or getting sexually explicit or suggestive images, messages, or video on a smartphone or through the Internet

Other notable Cons in Social Media

NU MOA

Digital dating abuse is the use of technologies such as texting and social networking to bully, harass, stalk or intimidate a partner. Often this behaviour is a form of verbal or emotional abuse perpetrated online.

Other notable Cons in Social Media

NU MOA

Online sexual solicitation occurs when children or adolescents are asked to engage in sexual activities, sexual talk, or to give personal sexual information on the Internet

Other notable Cons in Social Media

NU MOA

Pornography is any material (either pictures or words) that is sexually explicit

Other notable Cons in Social Media

NU MOA

Cyberbullying is when someone, typically a teenager, bullies or harasses others on the internet and other digital spaces, particularly on social media sites.

Other notable Cons in Social Media

NU MOA

Fake news is false or misleading information presented as news. Fake news often has the aim of damaging the reputation of a person or entity, or making money through advertising revenue.

Misinformation, Disinformation and Malinformation

NU MOA

- **Misinformation**: information that is false, but not intended to cause harm.
For example, individuals who don't know a piece of information is false may spread it on social media in an attempt to be helpful.

Misinformation, Disinformation and Malinformation

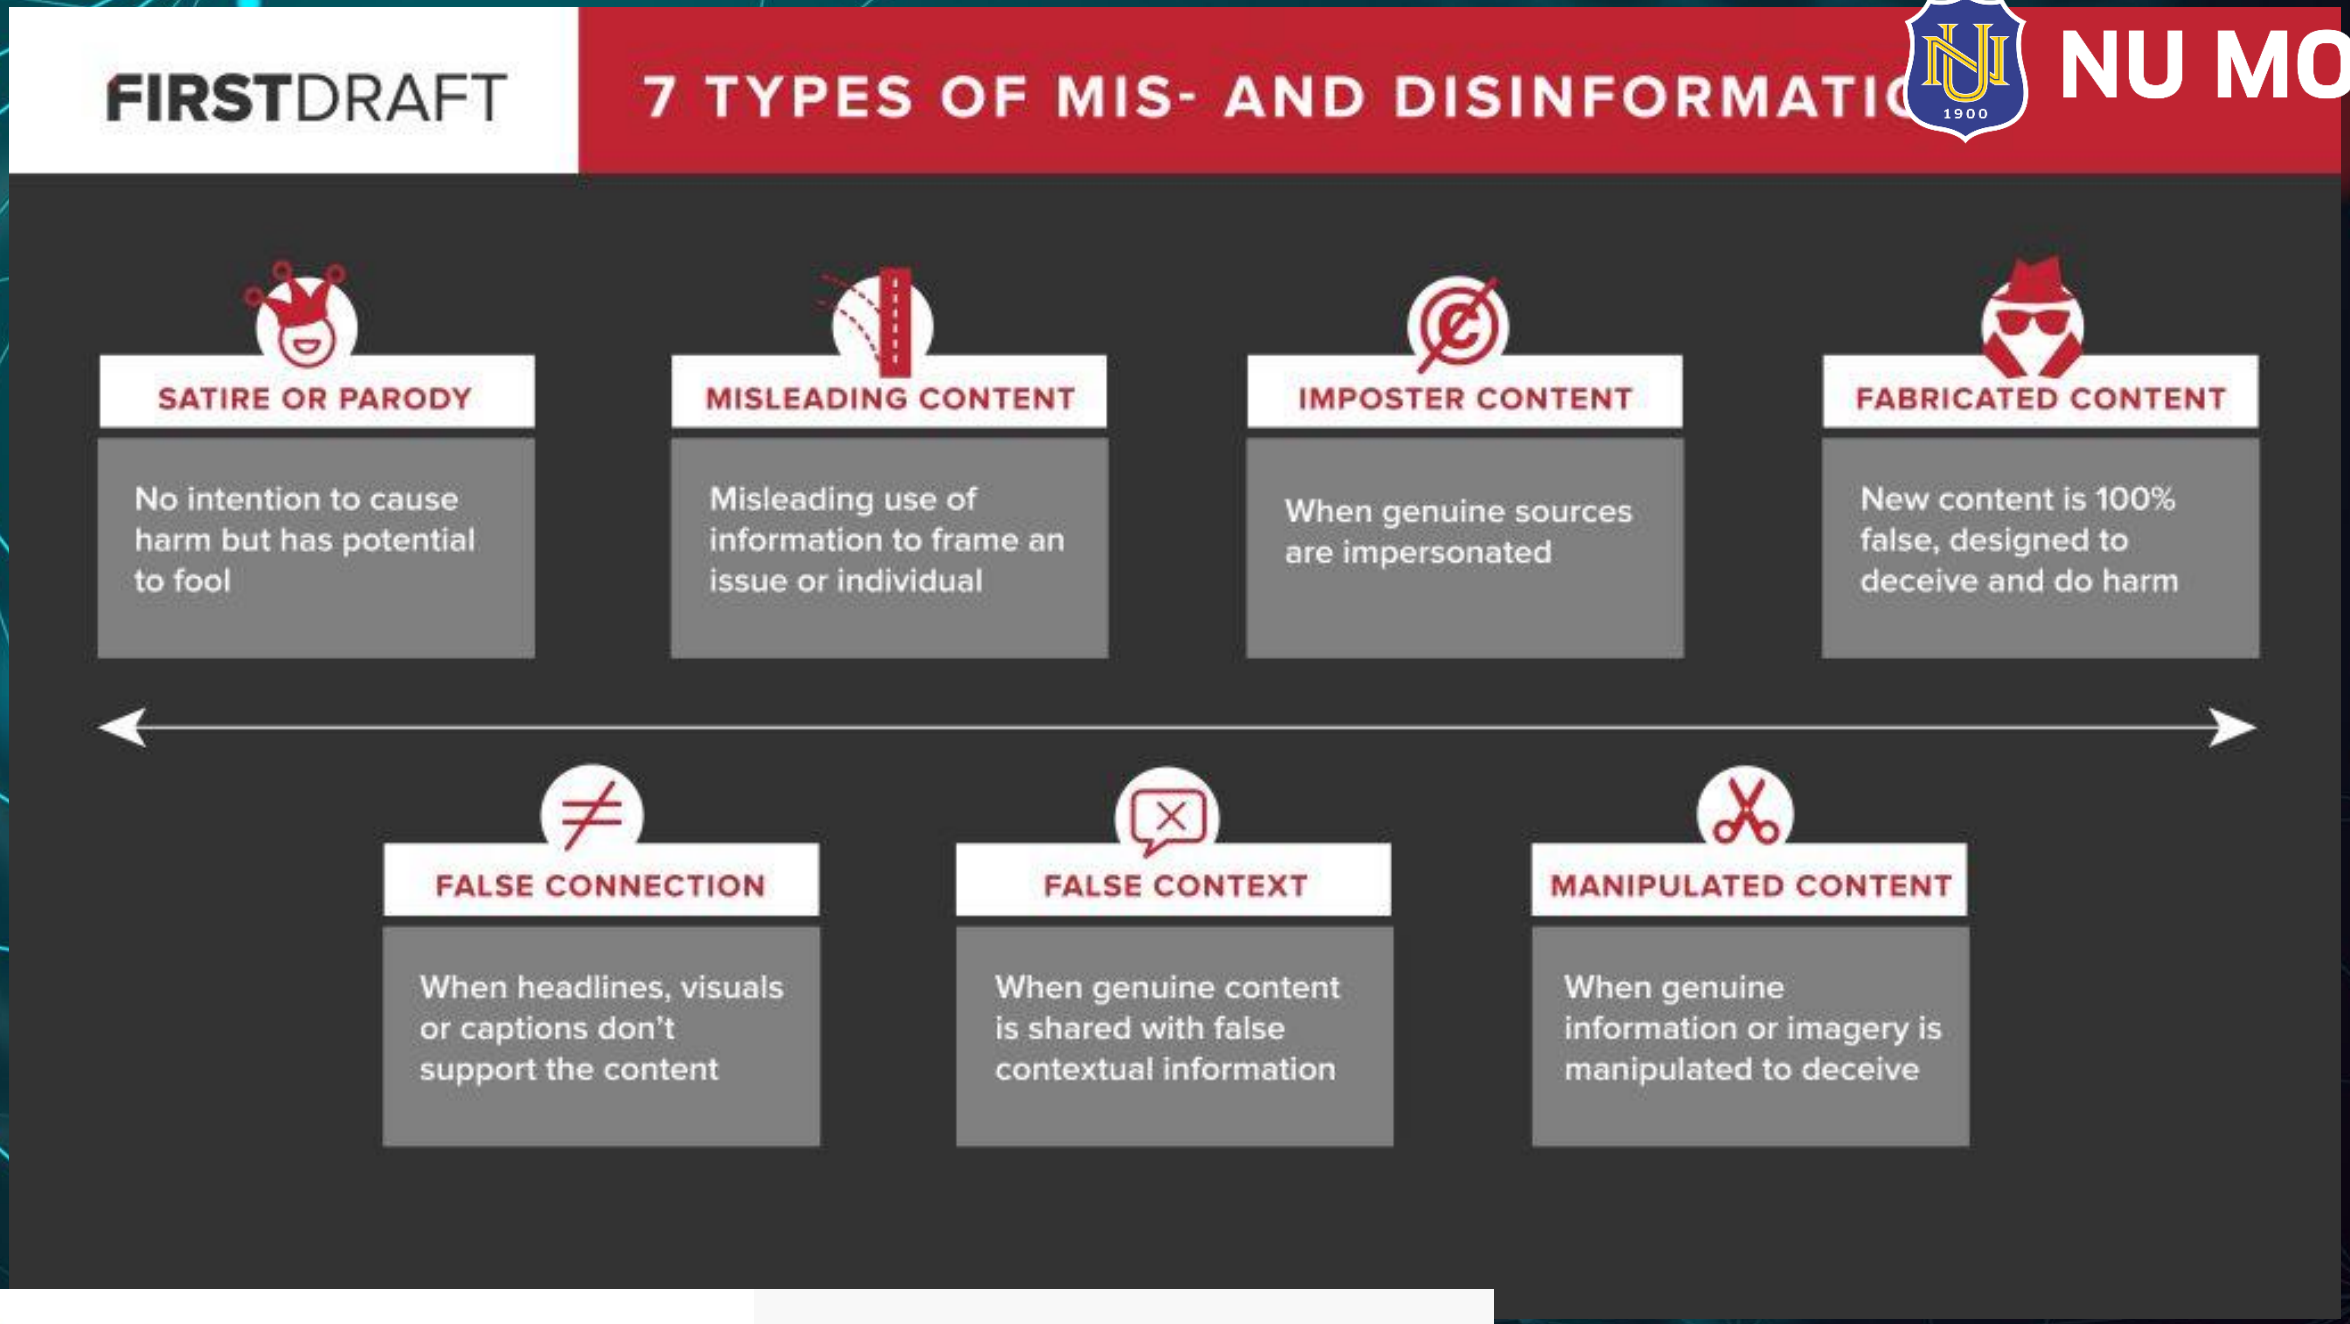

NU MOA

- **Disinformation**: false information that is deliberately created or disseminated with the express purpose to cause harm. *Producers of disinformation typically have political, financial, psychological or social motivations.*

Misinformation, Disinformation and Malinformation

NU MOA

- **Malinformation**: information that is true, but is shared to cause harm.
  This includes private or revealing information that is spread to harm a person or reputation.

FIRSTDRAFT
